**“No one outside of your company can provide you with the answers. If they say they can, they’re lying. The solutions that will make your business a long-term success must be arrived at internally.” - Tony Robbins**

**We guarantee you will get tools and strategies you can use to grow your business by 30–100% and increase your profitability by 50% within the next 12 months!**

**This is not just a promise, our graduates are doing this again and again...**

**You will understand the critical factors that are impacting your business right now.** Learn a systematic method to uncover and resolve every business problem that has not yet been solved by you and your team. By looking at your business through a new filter, you will discover what needs to be solved first and how to capture, categorise, and sequence your approach to build momentum and maximise success.

# WHAT IF YOU COULD GROW YOUR BUSINESS BY 30 TO 100% and increase your profitability by 50% within the next 12 months?

**This is not just a hypothetical question. Business Mastery graduates routinely achieve these types of results, because they understand that world-class businesses are created and continue to dominate only through constant improvement in the 7 Forces of Business Mastery.**

**1. Know where you really are and create an effective business map.** The world is changing too fast for a traditional business plan. You need a map that will guide you from where you are and where you want to be, and give you the flexibility to anticipate and capitalise on change. When you can successfully adapt to changing conditions, you'll grow your business faster.

**2. Constant Strategic Innovation: Products, Services and Delivery.** What is your X-Factor? What is your company great at? Find ways to add more value than anybody else does, and you'll always have loyal clients.

**3. World-Class Strategic Marketing. Your marketing must be as great as your product or service.** You'll get clarity on your Unique Selling Proposition and learn how to build a Core Story that gives you an automatic advantage over your competitors.

**4. Sales Mastery Systems.** Learn the secret to finding the very best sales people and how to inspire, train, reward and manage them to become an extraordinary force for growing your business.

**5. Constant Anticipation: the Power of Legal and Financial Analysis.** We all have blind spots. How do you ensure that your business stays financially sound? You can't just hire a CFO and forget it. You need the tools to understand and manage your cash, not just your bottom line.

**6. Optimisation and Maximisation.** How do you grow your business 30, 60 or 100% or more in away that doesn't require extra investment in marketing? You get even smarter about how you deploy your resources. Learn to optimise your business with a series of micro-improvements and how that creates a geometric change.

**7. Raving Fan Clients and Culture.** Learn how to get your team to make the psychological and emotional shift that will set you apart and enable you to create raving fan clients who generate referrals and repeat business.

Due to its exclusive nature and high demand, this program will sell out.
